Compassionate Businesses - Saving Lives and making a difference in our community

Susan Somers, of FM marketing, named her new company after her dog Freddie Marie, who she rescued 8 years ago. She has strongly been supporting animal rescue and animal charities in our communities ever since.

Susan Somers of FM marketing is helping guide us toward expansion by volunteering her promotional talents and experience. She founded her company last year to provide marketing and public relations services to small and medium-sized businesses. Inspired by her love for her dog Freddie Marie, Ms. Somers and her company are one of our first annual sponsors of a dog kennel, which will carry over into our expansion.
